hey everyone amanda vollmer here
00:03
of yummy.doctor healingwithdmso.com
00:07
and yum naturals emporium i want to
00:10
share with you some important
00:11
information
00:12
that a friend of mine just sent and uh
00:16
goes alongside some other research i've
00:18
been doing lately
00:19
really just putting the puzzle pieces
00:21
together
00:23
to help you understand the overarching
situation that has been in the works for
00:30
hundreds of years really to cull the
00:33
population
00:33
control the population genetically
00:36
modify
00:37
people and it's a very
00:41
specific eugenics agenda and there's a
00:43
lot of information out there
00:45
about this situation about who these
00:47
people are
00:48

who have been doing this for a long time
00:50
and for those of you who are awoke or at
00:53
least diet woke this is important
00:54
information the ones who are
00:57
deep in slumber the the zombie
00:59
apocalypse
01:01
um is here and they are the ones that
01:05
wear the masks and obey
01:06
and don't think and drink the fluoride
01:09
and i don't know
01:11
i don't know if we can save those people
but we're going to do our best to save
01:17
ourselves and our loved ones and this is
01:19
information
01:20
that for the thinking humans should
01:22
raise
01:23
some red flags and should really
01:26
help you to go wait take a pause take a
01:29
beat
01:30
take a step back and go let me just do a
little more research on this let me
01:33
understand this um and help
01:36
me protect my loved ones from
01:39
this uh frankenstein monster mess

01:44
that has been pushed into our lives
01:46
without our consent
01:48
what this piece of information is
01:51
showing
01:52
as i've been talking about in many of my
01:54
other videos as i've been
01:55
exploring and sharing for many years
um first of all viruses do not exist as
02:02
described
02:03
we do not have contagion and we do not
02:04
have a germ theory
02:06
that is all false what is going on
02:09
and what these pcr tests do is
02:12
actually take components of our own
02:14
waste materials that are there to
02:17
when our bodies are stressed and
02:18
strained and
they uh remove wastes and they repair
02:23
damaged dna so what this specific
02:27
um article is going to help you
02:30
understand
02:30
is that this piece this highlighted
02:32
piece of dna
02:34

so these are base pairs and they have

02:36

there's four

02:37

base pairs and they make different

02:39

combinations so this is

02:41

the so-called novel coronavirus

that they search for in your body

02:47

and that they put in the pcr test which

02:50

is not even supposed to be used as a

02:51

test

02:52

it's actually a tool to uh make more

02:55

copies of this so you can tell what you

02:58

actually have

02:59

in your body um so this is

03:03

the sequence it's an 18 character primer

03:06

and it's found in the who

coronavirus pcr testing protocol

03:10

document which is

03:11

right here okay the institute of pasteur

03:15

pasture was a fraud

03:16

a liar a hoaxer and a fake

03:19

and if you want to learn about him you

03:22

can read beauchamp

03:23

versus pasture there's there's a

03:27

very there's a lot of information about

03:30

what pasture did in his um

03:34

his hidden laboratory notes

that were only released recently so this

03:40

is the full sequence of full information

03:42

where he got this so you can look at

03:43

that

03:45

so what's happened here is this is what

03:47

they're using to detect

03:49

in your body and to make a positive test

03:52

result

03:52

okay this is their sequencing

03:57

their primary assembly now over here

this is homo sapiens that's humans

04:06

chromosome 8

04:07

primary assembly chromosome 8

04:11

is this sequence c

04:14

t c c c t t t g

04:17

t t g t g t t g t

04:21

very specific and over here c

04:24

t g c t c c c t t

04:27

t g t t g t g t t g t

04:31

it's this what they are doing is calling

04:34

our chromosome eight

primary assembly as

04:40

the coronavirus we are the virus

04:45

your own dna like i've been saying like

04:49

i've been teaching

04:50

here's the evidence that

04:53

what they are pulling out of your body

04:55

and calling a disease is your own dna

04:59

this should really help you

05:02

okay understand the scam

05:05

at hand here and if you can't see this

05:08

if you if you go oh blah blah blah

go away go take the vaccine leave

05:14

please because you're too dumb to exist

05:16

really

05:17

all right go back to the soil start over

05:21

but for those of us with a thinking

05:23

brain

05:25

this should help you understand

05:28

the big scamola now let's go over to my

05:31

other research i've been doing

05:33

before this came into my inbox this

morning

05:36

i was researching gardasil syndrome

05:39

because what someone was asking me

05:42

someone was asking me about what is
05:46
happening
05:46
with this vaccine this
05:50
rhona vaccine that um they've been
05:53
promoting and pushing on us and trying
05:56
to scare us into
05:58
and ignoring natural remedies and
attacking natural remedies and
06:03
fudging the numbers and taking our flu
06:06
numbers and making them as this fake
06:08
story having this fake test to find our
06:10
own dna and tell us it's a disease
06:12
the lies right so what's the end goal of
06:15
this whole thing
06:16
i said that it is to genetically
06:19
engineer
06:20
the human race as they've already been
06:22
working on and doing with all vaccines
and also to sterilize certain
06:27
populations
06:28
as vaccines do especially for example in
06:31
the wild horse community you can look
06:32
that up that vaccine
06:34
is specifically used to stop the

06:37

breeding

06:37

of wild horses so they don't have a huge

06:40

population they use vaccines for

06:42

population control

and this particular information this is

06:47

not all

06:48

100 accurate because they're still

06:50

coming from the germ theory when they're

06:52

explaining things

06:53

however this is what i'm talking about

06:57

here

06:58

the dna of the hpv

07:01

strain is virtually identical to the

07:03

rhesus monkey

07:04

dna protein and was

in this polio vaccine okay

07:10

so what they did is they took dna

07:14

that was very close to human dna and

07:16

they put it

07:17

in the salt polio vaccine then they

07:20

injected

07:22

the um offspring or or so

07:25

here we have look children

07:29

who have had offspring or parent who
07:31
received the salt polio vaccine
received the gardasil hpv vaccine
07:35
germline with this
07:37
dna in it so they have this
07:41
uh immune system problem that comes from
07:44
gardasil
07:45
and basically what's happening is
07:47
there's a cross reaction in the body
07:49
there's a confusion in the body when you
07:51
inject dna like that it goes well
07:55
this who are you what is this is this me
07:57
not me
because the body has to understand self
08:01
versus non-self and when you do this you
08:03
confuse that mechanism
08:05
and what it will do is it will either
08:08
tuck it away
08:09
uh it will won't be able to uh rectify
08:12
the problem because it's like a
08:14
computer glitch really in a sense and um
08:18
so these people get cancer uh these
08:22
people get
what they call autoimmune diseases but
08:24

really what the autoimmune disease

08:26

is is that the body cannot do its job

08:29

properly without attacking the self

08:31

because

08:31

now you've put sort of self

08:34

um in areas of the body that shouldn't

08:37

have that but if

08:38

if the immune system if the body goes

08:41

after

08:42

um and tags those pieces of dna it will

tag

08:46

the pieces of dna that are similar to it

08:48

that are healthy and normal and part of

08:49

you

08:50

and it'll destroy the self so it's this

08:52

dance between how much of the self am i

08:54

going to destroy

08:55

so you see is trying to get rid of

08:58

something that's can it's

08:59

told by the body is foreign it came in

in a foreign manner

09:03

it's tagged as foreign however you also

09:05

contain

09:06

that inside your cells and so the body

09:09

doesn't know

09:10

how to um rectify that

09:13

okay this is a problem sorry

09:18

this is a problem okay

09:21

so do you understand

09:25

all right so gardasil syndrome uh you

09:27

can read about it more

this is uh

09:32

this is basically poison this is this is

09:35

uh not protecting you from anything

09:37

there's no there's no hpv

09:39

a virus your body makes these things in

09:42

response to injury

09:44

your body makes these things with your

09:45

own dna inside of it

09:47

or rna to send to an area that has

09:50

damage

if your cervix has been damaged either

09:52

by sex either by

09:54

inflammation either by some sort of

09:56

imbalance in the tissues acidity in the

09:59

tissues

10:00

chronic inflammation what happens is

10:03

your cells your pleomorphic cells change
10:06
shape to go
10:07
and take the information that to repair
10:10
those cells to the area
10:11
and that's your own dna it's your own
dna they're tool boxes of repair
10:16
and of course once the job is done it
10:18
will shed or it will just be present or
10:20
be reabsorbed if it doesn't need to shed
10:23
but if you want to go and do a scraping
10:24
what are you going to find there
10:26
you're going to find these particles of
10:27
your own dna in
10:29
in the area that's trying to repair it
10:32
and these dumb mofos who can't think
who call themselves doctors who call
10:37
themselves intelligent
10:39
they are so confused they're in such a
10:42
cult
10:42
they're so brainwashers so they're so
10:45
dumbed down
10:46
they can't see what's right before them
10:49
and what's right before them
10:51
is the evidence the effect of a healing

10:54
they think every symptom is a disease
10:56
they think they suppress it and they
kill
10:59
silly they can't get their head around
11:02
it
11:02
because they've been brainwashed by
11:05
these clowns
11:06
by the who and all their cronies
11:09
okay so this
11:13
is important for you to understand okay
11:17
it's important that you realize
11:20
that this is evidence of what i'm
talking about
11:23
and have been talking about for years
11:27
that the material we are finding that we
11:31
or they are calling viruses is nothing
11:34
more than your
11:35
own dna
11:38
and why do you think they're getting
11:41
such
11:42
false positives out of this
11:45
crappy test because you all have this
11:49
in your body and at any given point in
time

11:52

your body is going to repair this piece

11:55

of

11:55

information especially if you have

11:58

inflammation especially if you're having

12:00

exudate of the lungs you're having a

12:02

clear out or a detox of the lungs which

12:04

is what a cold and flu is it's a detox

12:07

it's getting rid of waste if you detox

12:08

your body ahead of time you don't get

12:10

sick

12:10

you don't get these things it's not

12:12

contagious you don't catch anything you

12:13

don't get

12:14

anything you get triggered into detoxes

12:17

that's all it is

12:18

and so when you're detoxing and they

12:19

find these particles

12:21

that have come to the area to repair

12:23

your cells they

12:24

they they make a cartoon of it and they

12:28

tell you it's floating through the air

12:29

and it's going to kill you

12:30

you're being punked you're being lied to

12:34

this is a hoax this is a trojan horse

12:37

for a a socialist takeover

12:41

okay i don't know how much more clearly

12:43

i can explain it to you than this

12:45

i probably will talk about this at this

12:47

health summit that i invite you to you

12:49

can sign up at this page

12:53

it's in nine days august 29th and 30th

12:57

eastern standard time

13:01

there's some really wonderful people

13:03

here

13:04

terry betsy clark i'm at 11

13:08

a.m till 12 p.m here and

13:11

um jason's guys i'm excited for

13:15

to talk with jason and will uh

13:18

josh mason there's just some really

13:20

great we're gonna all be in the round

13:22

table discussion at five to six pm

13:24

eastern

13:25

okay we're all going to be this is this

13:27

is us having a chat together which is

13:29

really exciting

13:31
um and those are the sunday
13:33
presentations
13:34
look at that pretty cool so i really
13:37
hope you can make it to this um
13:40
you know i'm sure it will be put in
13:43
wonderful you know youtubes and
13:46
d tubes and other places to find it
13:49
after the fact
13:50
but at least if you can uh be a part of
13:53
it now that would be really exciting so
13:55
there that is
13:56
um listen share this
13:59
with people help them understand that
14:01
viruses do not cause disease that
14:03
viruses
14:05
are your own dna they come from your
14:07
body
14:08
okay they come from your body
14:12
it's a chromosome and that you make
14:16
these things in accordance with
14:20
inflammation and damage to tissue
14:22
bacterial infections are no more than
14:25

areas of diseased tissue that need to be
14:28
removed by the body
14:29
you don't use antibiotics to kill them
14:32
you assist the body
14:33
to detox the tissue and repair the
14:35
tissue okay you don't you don't
14:38
kill yourself stop we have to stop
14:40
killing ourselves
14:41
in the name of trying to not kill
14:42
ourselves
14:44
so again my website's yumnaturals.com
14:47
um i have a lot of holistic remedies
14:50
that can really take your health to the
14:51
next level
14:52
help you detox properly prevent colds
14:56
and flus
14:58
and put yourself in a really fine place
15:00
of health and
15:01
balance and wellness so that you don't
15:03
become
15:04
victim because now if you do get sick or
15:07
something does happen you have to go
15:08
into these institutions

15:10
these institutions are dangerous they're
15:12
going to force testing on you
15:14
and by all means necessary do not get
15:17
tested you must not refuse the test
15:19
refuse the contact tracing watch my
15:21
video on the dangers of contact tracing
15:24
please help people wake up to the agenda
15:26
before there's no more fight
15:28
left to to be given because
15:32
soon there they already have started the
15:34
quarantine centers
15:35
so it's not going to be good enough that
15:37
you quarantine at home they're going to
15:39
take you into quarantine centers away
15:41
separate you from your family do not
15:44
send your children to school
15:45
please are you daft don't send them to
15:48
school
15:49
the children are next they killed their
15:51
elders
15:52
now they're coming after the kids in
15:54
september
15:55

stay at home protect your children at

15:58

all costs

16:00

let me just before i go i didn't answer

16:03

my original question this is the plan

16:06

okay the plan is they've been spraying

16:10

nanoparticles of metals in the sky

16:12

through genetic engine

16:13

through geoengineering okay for a long

16:16

time and if you can't see that you're

16:18

blind as a bat

16:20

um so most people who don't detox metals

16:23

or nanoparticles are full

16:25

of them okay by the way you can use

16:28

borax to get rid of a lot of these

16:29

nanoparticles you can also use clays

16:32

certain clays like diatomaceous earth

16:34

zeolite bentonite clays can grab out a

16:36

lot of it

16:37

activated charcoal can get rid of a lot

16:39

of it i have a lot of this on my website

16:42

um these particles are part of the

16:45

um genetic engineering of the human race

16:47

so what they do is they inject

16:49

these pieces of dna into the body

16:52

so the the vaccine will have a specific

16:56

um basically mimic what the body does in

16:59

the toolboxes the

17:01

the so-called virus toolbox is a

17:04

piece of dna with a

17:07

protein coat around it that has a

17:09

delivery method they can also make it

17:11

into a phage which is a fast shock

17:13

protein created by

17:15

really quick bacterial death so when you

17:16

kill bacteria really fast it'll make a

17:18

phage

17:19

and phages will hold the dna of the

17:21

bacteria so when the coast is clear

17:23

it can reinfect cells in fact it just

17:26

means to insert the dna

17:28

so that the bacterial lineage that you

17:29

need for your health will grow back okay

17:31

that's what those things are

17:33

as dr stefan Lanka approved and many

17:35

other brilliant

17:36

actual thinkers and scientists and
17:38
doctors have shown and proven
17:40
um that's wholly ignored suppressed and
17:42
attacked by the mainstream
17:43
media shame on them and these fake
17:45
doctors with their white coats and their
17:47
their cult like mindset so
17:50
so you're full imagine people full of
17:52
metals and eating crap nobody tells them
17:54
that but their diet can actually change
17:56
their health which is a joke
17:58
nobody tells them about nutritional
18:00
deficiencies nobody
18:01
corrects any of their imbalances they
18:03
just keep drugging them
18:05
and poisoning them further so they're
18:06
very already sick and on the edge
18:08
and then you inject these packets of dna
18:12
that you want to insert
18:14
into their genome so that you can
18:15
control them further or change their
18:17
behavior
18:18
and what you do how you do that is

18:20
called a method of electroporation so if
18:23
you have enough metals in the body
18:24
and then you turn on your 5g towers what
18:27
you can do so the first phase is the
18:29
phage
18:30
will get the dna into the cell that will
18:33
happen
18:34
but the second phase is you have to get
18:35
that piece of dna into the nucleus
18:38
and how you do that is through
18:39
electroporation and how you do that is
18:41
to make sure there's enough
18:42
metals that will be resonant with the
18:45
frequency
18:46
of the of the electromagnetic field that
18:48
you pound on people
18:50
and so if you use 5g60 gigahertz and
18:53
and vibrate people at the time once
18:56
they've received their vaccine
18:57
electroporation will create these
18:59
micropores inside the nucleus so the dna
19:02
will go
19:02

in and you will get your genetically
19:05
modified human
19:06
it's as simple as pie it's not
19:09
complicated
19:10
but this is what the game is this is
19:12

20:00
while they traumatize this kid you don't
20:02
think it's it's child abuse to send your
20:04
children into a school where you can't
20:06
touch anybody
20:07
where you have to put have a desk with
20:09
plexiglass around it we have to mask a
20:11
